1. Claim 21-23 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim.

Applicant timely traversed the restriction (election) requirement in Paper No. 10. An action on the merits of elected claims 1-20 follows.

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 1 is indefinite because it recites a range within a range in line 11 thereof. Claim 12 is also indefinite because it is not clear whether the “free region” recited therein is the same as or is different from the one recited in claim 11 from which claim 12 depends.

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-11, 14-15 and 18-19 are rejected under 35 U.S.C. 102(b) as being anticipated by Fabre (cited by the applicant). Fabre discloses a set of elements (such as element 10 in Fig. 1) having all of the structural elements of the claims, such as those recited on lines 2-5 of claim 1, for example. Since the devices of Fabre have all of the claimed structure, they are presumed to be inherently capable of all of the claimed functions, such as those recited in lines 6-15 of claim 1, for example.

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 12, 13, 16, 17 and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Fabre. Fabre discloses most of the elements of the claims (as indicated above with respect to claims from which claims 12, 13, 16, 17 and 20 depend), but does not teach the specific limitations of these claims. On the other hand, it would have been obvious to construct the devices of Fabre as claimed, for the purpose of facilitating easier use thereof.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jacob K. Ackun Jr. whose telephone number is (703)308-3867. The examiner can normally be reached on Monday through Friday 8.30AM-5.00PM.
